Captains: Please share with your teammates.

One of the benefits of joining a BCA Pool League is having access to the premium version of the FargoRate mobile app. Now that our league is underway, the upgraded features should be available to all our players.

Open the FargoRate app. If, on the home screen there is no advertisement to upgrade the subscription then no further action is necessary. If, however, there is the typical appeal to unlock premium features for $12, then you'll need to take the steps below.

1. Tap the menu (hamburger icon) on the top left corner and select "Player Card." Carefully write down your membership number.

2. Contact FargoRate at support@fargorate.com. In the subject line, write "Premium Subscription Needs To Be Activated."

3. In the email, include your name, membership number, the name of our league (Huntington-Wells BCA Pool League) and our League membership number (#2483).

4. Explain that you are a sanctioned member and have paid your current 2026 annual dues, and that your FargoRate mobile app has not yet been upgraded to the premium version. Ask that these features be unlocked.

They generally respond within a day or two. The Pro version will give you more statistics and other information. For instance, you'll be able to see the FargoRatings of the team members you'll be playing in the next match.

Once your app is upgraded, go to settings to "share your matches."
